TravelAps.com

is a complete portal solution for travel agencies

- ★ Hotel + Flight + Transfer + Tour Services All Together
- ★ With XML Connectivity and Dynamic Packaging
- ★ Sell B2B and B2C with Professional Designs

What Are The Main Advantages ?

B2B, B2C and B2E Sales

TravelAps can be used for B2C, B2B and B2E purposes. After login its interface and functionalities change automatically. You can set different business rules and prices for different segments.

Dynamic Packaging

Travel agents can define their own hotel + tour+ transfer+flights and sell them together by dynamically packing with other world wide XML Travel Services.

XML Connectivity

TravelAps can be configured to connect to many XML Providers at the same time; it can compare and choose the best ones; list them all together with your local services

Integrated BackOffice

A comprehensive backoffice with flexible Contract Management, Integrated Accounting, CRM, CMS and Digital Marketing modules are main advantages of TravelAps.

Why Choose Us ?

We offer the most comprehensive travel portal solution with the lowest cost in minimum time.

Comprehensive Solution

It is the most complete solution for a travel agency to go online. It provides B2B and B2C sales with a comprehensive backoffice and superior XML/API Connectivity.

Quick Start and Low Cost

It has a very low cost since all XML Connections and booking engines are ready, tested and approved many times. All other working parameters are configurable and user interface designs are completely designable.

Latest Technology

We use the latest technology in programming (MVC.Net & JS & HTML5) and , XML Services and database management (MSSQL 2015) . We host in Amazon cloud servers.

Superior Support

We offer world class customer support with an experienced team. We offer free upgrades and new XML connections.

What People Say ?

After reviewing a number of technology solutions, we chose the travelaps as the most reasonable solution. It is not easy to find a system that is able to plan the entire trip taking into account the flight, accommodation, transfer to the hotel, however, I think that travelaps works well in each of these areas in addition at an affordable price. We are pleased that we bought the software that adapts itself to our growing requirements. We appreciate the cooperation with this company so that we can always count on a reliable approach to our needs.

Şükrü Üzel | 724 Transfer
www.724transfer.com

We decided to improve the efficiency of our company, so we were looking for some software that could help us do that. Due to such a large amount of the combination of the hotels and airlines that Travelaps holds doing business has become a lot easier and the opportunities wider. It would be much more difficult without their comprehensive product.
